

## LiveLife Pharmacy takes up top spot in Byron's new Mercato

Long-established Byron Bay pharmacy LiveLife Byron Plaza will relocate to a brand-new store in the region's biggest retail development for decades – **Mercato on Byron**.

The multi-million dollar shopping centre will open its doors in April and is set to offer locals and visitors alike unprecedented convenience for retail, dining and entertainment options.

LiveLife Pharmacy Manager Kiran Singh-Khaira said it was a unique opportunity to be included in the new centre as the only pharmacy among more than 30 specialty stores.

“Mercato on Byron is a truly unique shopping centre which really reflects the lifestyle and ethos of the community. We wanted to be a part of that – providing convenient access to pharmaceutical needs and advice in the same location as their weekly grocery shopping or dining out experience,” said Kiran Singh-Khaira.

The new pharmacy is a 114sqm shop stocking a large range of hats, sunscreens and beach products, as well as being one of just a handful of local stores to stock Clarins and Revlon products.

“This pharmacy has a 15-year connection with the Byron community. We know our customers, and they have grown to rely on our advice and support for all their medical and lifestyle needs,” said Ms Singh-Khaira.

“I specialise in skin care and dermo cosmetics and these are so important in the coastal environment we live in. I'm looking forward to helping you find the right product for your condition in our brand-new store!”

LiveLife Pharmacy also offers naturopathic consultations, medication reviews, weight loss and lifestyle advice and cosmetic advice.

Mercato on Byron is Australia's first complex to be awarded a 5 Star Green Star Retail Centre Design v1 2018 rating for energy efficiency, use of recycled materials and self-watering gardens.
